

CUSTOM WORK PROGRAM

- If you wish to participate in the Custom Work Program, you will need to register. This involves registering your name, address, landowner’s name, legal land description, the installation of a custom work service request sign, and payment for the signage and appropriate installation.
 - a. You will be assigned a number.
 - b. There will be two sides to your sign. A Green sign for Mowing and a Red sign for Blading. It will be your responsibility to have the custom work sign visible for when you wish to receive services.
 - c. Custom work will only be performed at the discretion of the Road Foreman and the Equipment Operator.
 - d. It is the municipality’s policy that custom work is to be completed if there is time to do so and the roads are maintained and safe.
 - e. There will be no need to contact the municipal office for the request or to double check if the operator is in your area. If the sign is present, and the operator has time, he will perform the work. If he does not perform the work, you can leave the sign up for the next time he is in the area.
 - f. The sign will be encased in a metal holder and you will be able to slide the mowing or blading sign into the holder. This needs to be mounted in a way that is visible to the operator.
 - g. The invoicing for the custom work will be to the landowner with the care of name/address of the registrant. In the event that the custom work invoice is not paid, this invoice will be added to the landowners tax account.
 - h. The cost of the sign is \$38. You are responsible for installing the sign.
 - i. Return the form whether you wish to participate in the program or not.

I will be invoiced \$38 for the program sign.
